OPEN WORKSHOP
TRAININGS 2016/17

Our open workshops are highly interactive where participants carry out a number of training activities rather than passively listen to a lecture or presentation.

We conduct two types of workshops -

1. A general workshop, for a mixed audience
2. A closed workshop, tailored towards meeting the training needs of a specific group.

We conduct open workshops to benefit organizations that have lesser nominations (one or more participants) as well as individuals to nominate themselves to avail KTS's quality training.
